

Theme 1

Science and Nature

Learning Objectives

- Learn about the natural environment in which we live
- Experiment with materials using our senses
- Learn how to solve scientific and ask questions such as what happens and why
- Appreciate the natural materials that are around us (flowers, plants, grass, summer insects and birds)

Our vocabulary enrichment package is going to include:

Care, collect, pets, explore, fish, guinea pig, nature, questions, scientist, texture, bird feeder and rocks

You will learn more about this project in a letter soon.

June 7th- June 18th

Theme 2

Off We Go: Transportation

Learning Objectives

- Learn different ways to move people and things
- Use new vocabulary related to transportation
- To discover cause-effect relationships with wheeled toys
- Identify things in our environment that move

Our vocabulary is going to be enriched with the addition of:

Bus, car, fast/slow, garage, move, train, truck, wagon, bicycle, car and wheels

We hear more information about transportation will soon be in the

mail.

June 21st- July 2nd

Theme 3

It Must Be The Grocery Store

Learning Objectives

- Setting up a grocery store in our classroom
- Recognizing the symbols and labels of some food items

For our vocabulary, we are going to be saying and “reading” words such as: bill, buy, canned food, cereal, fruit, grocery cart, grocery store, manager, milk, money, stock, vegetables, receipt and juice.

Please check your email about our grocery store.

July 5th- July 16th

Theme 4

My Doctor's Office

Learning Objectives

I already know all about my doctor's office, but I am going to:

- Play doctor
- Find out that a doctor's office is a good place
- Learn all the words about the doctor's office
- Learn to eat well so I can stay healthy

More words I am going to learn are:

Band-aid, check-up, doctor, nurse, doctor's office, emergency, medicine, scale, sick, smocks, temperature, well and x-ray

My teacher is getting ready to e-mail you more information about the doctor's office.

July 19th - July 30th

Theme 5

To the Garden We Go

Learning Objectives

Our learning goals include:

- Growing and observing plants
- Caring for plants
- Learn gardening related vocabulary
- Get physically fit for digging, pushing, pulling, watering and weeding

Our gardening vocabulary is going to grow by adding:

Dig, dirt, soil, fill, flower pots, flowers, growing, light, observe, planting, potting soil, sprout, water, feed, vegetables and salad

Flyers will be delivered regarding gardening.

AUGUST 2ND - AUGUST 6TH

SUMMER SENSATIONS

Big Tee's

Transition: 24-36 Months

Now that we have learned all the basic motor and sensory skills we will need throughout the rest of our lives, our job is now to refine those skills, rather than learning many new skills. Our energy is now going to be centered on our social, language, cognitive and emotional development. We are on our last leg of the pre-primary getting ready for our launch to the primary zone. Since we are striving to be independent, we may become frustrated when we cannot do what we want to do "BY OURSELVES".

SO, BRING IT ON!
